

Details:

- Versatile aluminum profile for use with Series L2 LED Engines.
- Stocked in 96" lengths but can be factory cut and assembled based on project requirements.

Standard Options:

- Factory cut lengths to 1/8" Increments.
- Complete factory assembly with any Series L2 LED Engines.

Custom Options:

- Factory applied Magnet Strips "MAG"
- RAL Finishes available "RAL"
- Factory applied color filters (Rosco)

Cross Section:

Profile:

Standard finish is Anodized Aluminum

RAL Finishes available - Please specific Tiger Drylac #  
Example RAL9010-WHITE

RAL Finishes are quoted on a per project basis

Lenses:

**Clear** - Allows for maximum LED efficiency. This should not be used in applications that are either direct view or where reflective surfaces would allow for LED imaging. (90-95% Transmittance)

**Frosted** - Reduced LED Efficiency but shields LED diodes from reflective imaging. Do not use for direct view applications. (80-85% Transmittance)

**Opal** - Maximum LED diffusion with a reduction in efficiency. Some tight pitch Series 2 LED's allow for direct view applications. (50-60% Transmittance)

Lenses snap into the profile and can be easily changed at any time.

Accessories:

End Cap (Pair) #EC

Screw Clip "SC"
